[Clave De Licencia Para Dll Files Fixer](#)

The screenshot shows the DLL-files Fixer application window. The title bar includes the logo, the text "DLL-files fixer", and standard window controls (minimize, maximize, close) along with a language dropdown set to "Help". The main menu contains five items: "Status", "Scan Registry", "Install DLL Files", "Backup Registry", and "Settings". The "Backup Registry" section is active, displaying a heading "Backup Registry" and a descriptive paragraph: "DLL-Files Fixer provides complete backup and restore support. To return to any previous configuration, simply select an item from the list below and click on the Restore button to start the restore process." A prominent blue button labeled "Take Full Registry Backup" is visible. Below this, the "Restore Registry" section is shown with two tabs: "Full Backups" and "Partial Backups". The content area under the tabs is empty, with the text "There are no items to show." At the bottom of the application, there is a watermark for "ITDUNYA.COM" and two buttons labeled "Delete" and "Restore".
